Q6. *How many guidelines worksheets should be initiated in MAGS for a case involving multiple criminal events?*

One set of guidelines worksheets should be initiated. If multiple criminal events (as often indicated by multiple unique case numbers) are being sentenced by the same judge on the same day, then only one set of sentencing guidelines worksheets should be initiated for all of the cases. All case numbers within the same sentencing event will have the same worksheet ID (WS ID). The overall sentence across all included offenses will be compared to the overall guidelines range across all events and offenses to determine if the sentence is a departure from the guidelines. (MAGS User Manual, Section 2.7)

Q7. How do I search for and copy a guidelines worksheet in MAGS for a reconsideration/modification or three-judge panel review of a previously submitted MAGS case?

You should only initiate a guidelines worksheet in MAGS if the case is a reconsideration/modification and three-judge panel review for a *Crime of Violence* (CR, §14-101) **AND** an adjustment was made to the active, original sentence. The guidelines will remain the same as in the original case, but the reconsideration worksheet should indicate how the sentence was adjusted.

To make a copy of the original sentencing guidelines worksheet for the new reconsideration/modification or three- judge panel review, check the *Reconsideration/Modification or Three-Judge Review for COV Sentences* box under the “Add New” button on the MAGS *Home* screen and then search the applicable case number using the following format:

- CJJCRY##### (or, if applicable, pre-MDEC case number format).
- Where JJ= 2-digit jurisdiction code And YY= filing year.
- Baltimore City cases pre-MDEC should be entered using their standard, 9-digit, case number format.

If the original worksheet is found, please click the copy icon () for that case. If the original worksheet was not submitted via MAGS for the original sentencing event, please click the “Add New” button to initiate a new worksheet for the sentencing event. In this instance, MAGS will calculate the guidelines based on those in effect at the time of sentencing. If the guidelines are different from those calculated for the original sentencing, the State’s Attorney or defense counsel may bring this to the attention of the judge. (MAGS User Manual, Section 2.9)

Q8. How do I locate a worksheet that was previously started in MAGS but has not yet been submitted?

Users may search for a previously started case on the *Home* screen by entering the jurisdiction, SID number, first name, last name, case number, or worksheet ID (WS ID) and clicking the *Search* button. Please note that cases entered in the GLCT are not saved in the MAGS system. (MAGS User Manual, Section 2.8)

Q9. What should I do if I cannot find an offense in the Guidelines Offense Table?

Contact the MSCCSP Helpdesk at (301) 403-4165 for assistance. Please be prepared to provide the following offense-specific information: offense name, MD Code Article number, and CJIS Code (if available). (MAGS User Manual, Section 4.3)

Q10. Why is the overall guidelines range not calculating properly for a case utilizing the multiple victims stacking rule?

Review the information entered on the *Offense/Offender Score* screen accessed from the *List of Offenses* screen **for each offense with a unique victim** to ensure that “Yes” was selected in

response to the question “*Flag offense for multiple victim stacking rule?*” A “victim number” should also be selected in the corresponding drop-down under “*To which victim does this apply?*” to ensure that only one offense per distinct victim is flagged for the “stacking” rule. Also ensure that the case involves a criminal event with multiple victims and not more than one seriousness category I or II offense. (MAGS User Manual, Section 4.3)

Q12. Why is the overall sentence not calculating properly for two or more offenses with consecutive sentences?

Review the *Offense Sentence* screen accessed from the *Sentence* screen in MAGS to ensure that “Yes” was selected in response to the question “*Is the sentence for this offense consecutive to another count in this sentencing event?*”. This field should be marked “Yes” if the sentence for the offense is consecutive to another count in the sentencing event OR the sentence for another count in the sentencing event is to be served consecutively to the sentence for the offense. Sentences marked “Yes” will be summed to obtain the total sentence length for the case. (MAGS User Manual, Section 4.5)

Q13. How do I account for merged offenses in MAGS?

Merged offenses must be deleted from the sentencing event for proper calculation of the overall guidelines range for the case. The *Additional Information* field on the *GLS/Overall Sentence* screen may be used to note convicted offenses that were merged at sentencing. If an entered offense is deleted, the individual and overall guidelines ranges on the *List of Offenses* screen will automatically update. (MAGS User Manual, Section 4.3)

Q14. What is an MSCCSP binding plea and how does it impact whether a sentence is a departure from the guidelines?

An MSCCSP binding plea is a plea agreement presented to the court in agreement by an attorney for the government and the defendant’s attorney, or the defendant when proceeding pro se, that a court has approved relating to a particular sentence and disposition. An MSCCSP binding plea agreement means an agreement to a specific amount of active time (if any), not merely a sentence cap or range. The court has the discretion to accept or reject the plea. The agreement is binding on the court under Maryland Rule 4-243(c) if the court accepts the plea. By MSCCSP rule, sentences in cases adjudicated by an MSCCSP binding plea are considered guidelines compliant. (MAGS User Manual, Section 4.8)

Q15. Why is MAGS displaying the departure status as “No” for a sentence that appears to be a departure from the sentencing guidelines?

MAGS will automatically mark “No” for the departure status for the overall sentence if: 1) the “Guidelines Applicable Sentence” displayed on the *GLS/Overall Sentence* screen falls within the overall guidelines range; 2) the disposition type is an MSCCSP binding plea; 3) the offender was sentenced to credit for time served with no post-sentence incarceration time and the amount of credited time exceeds the guidelines range; or 4) the offender was sentenced to a corrections options program, and the offender’s initial sentence plus any suspended sentence falls within or above the overall guidelines range, and the offender’s current sentencing event and any pending charges do not include a crime of violence under Criminal Law Article (CR), §14-101,

sexual child abuse under CR, §3-602, or a law of the United States or of any other state or the District of Columbia. (MAGS User Manual, Section 4.8)

Q16. *How can I correct an error in a worksheet in MAGS that has already been submitted?*

The court clerk, judge, or judge's designee should send an e-mail to the MSCCSP Helpdesk at msccsp@umd.edu with the following information: case number, offender name, a brief explanation of the specific error, and the requested modification. The MSCCSP will make the requested change in the MAGS application and then send back a revised PDF of the sentencing guidelines worksheet. The court clerk or judge's designee should take the proper steps to ensure that the revised worksheet is distributed to all appropriate parties. (MAGS User Manual, Section 4.12)

Q17. *How can I make the font darker on the PDF printout of the worksheet?*

If the font displays too faintly when the worksheet is printed in black and white, the MSCCSP recommends printing the worksheet in color so that all information is legible. (MAGS User Manual, Section 4.9)
