

## **Maryland Sentencing Guidelines Compliance and Average Sentence for the Most Common Person, Drug and Property Offenses (Fiscal Year 2021)**

The tables below summarize Maryland sentencing guidelines compliance and average sentence for the five most common offenses in each crime category (person, drug, and property). The tables are based on sentencing guidelines worksheets submitted to the Maryland State Commission on Criminal Sentencing Policy (MSCCSP) for circuit court convictions sentenced between July 1, 2020 and June 30, 2021. Only single count cases were included. The accuracy and completeness of the sentencing data summarized below are directly related to the quality of the information entered in each guidelines worksheet.

The MSCCSP deems a sentence compliant with the guidelines if the initial sentence (defined as the sum of incarceration, credited time, and home detention) falls within the applicable guidelines range. In addition, the MSCCSP deems a sentence compliant if the judge sentenced an offender to a period of pre-sentence incarceration time with no additional post-sentence incarceration time and the length of credited pre-sentence incarceration exceeds the upper guidelines range for the sentencing event. The MSCCSP deems sentences to corrections options programs (e.g., drug court; Health General Article, § 8-507 commitments; home detention) compliant provided that the initial sentence plus any suspended sentence falls within or above the applicable guidelines range and the sentencing event does not include a crime of violence, child sexual abuse, or escape. By doing so, the Commission recognizes the State's interest in promoting these alternatives to incarceration. Finally, sentences pursuant to an MSCCSP binding plea agreement are guidelines-compliant (COMAR 14.22.01.17). The MSCCSP adopted the binding plea agreement compliance policy in 2001 to acknowledge that binding plea agreements reflect the consensus of the local view of an appropriate sentence within each specific community. The corrections options and binding plea agreement compliance policies allow the court to set a guidelines compliant sentence which considers the individual needs of the offender, such as substance abuse treatment, as opposed to incarceration.
